

BOSTON PARTNERS IN EDUCATION

Boston Partners in Education helps K-12 students in the Boston Public Schools who are struggling to succeed academically. These students receive at least one hour of in-class support from our volunteer academic mentors every week during the school year. Every year Boston's corporate, civic, and cultural leaders inspire thousands of students in Boston Public Schools - our future "Big Cheeses" - to think and dream of what they can be.

Our goal is for all children to succeed, and often, a little extra attention is all they need to catch up and get ahead. Last year, we provided nearly 4,000 K-12 students in 64 schools with critical academic and mentoring support through the efforts of 595 volunteers.

Interested in supporting students in Boston Public Schools? Learn more about joining the network of Boston leaders already serving as Big Cheese Readers.
