

Finding The Right Materials: Resources

During our October Mentor Development Session, mentors participated in breakout rooms to discuss various aspects of coming prepared for sessions. Below, find the materials used and resources shared in each breakout room.

Breakout Room 1 : Understanding Common Core State Standards

Learn about researching additional materials to help support your match. Review how to understand the Common Core State Standards for the grade level and subject area you are supporting, and use that understanding to find additional resources to work through with your mentee.

Breakout Room 2: Motivating Your Mentees & Building In Choice

Learn about session management; whether you need support in discussing behavior management strategies, seeking support in and outside of the classroom, or learning about strategies on how to motivate your student during matching. Our goal is to use motivating activities and rewards to help manage our session and continue to provide a safe space for mentors and students.

Breakout Room 3: Google Meet Tutorial for Independent Learning Support

Learn more about managing Google Meet and going over some free online resources for every grade level. If you are more comfortable using Zoom and not sure how to get started with Google Meet, we'll go step by step and show you some quick tips on the platform.
